- Battery: Lithium
- Flow rate: 2,8 l/m
- Adjustable stream: continuous stream in jet and spray modes
- Hose length: 1 m
- Nozzle size: 35 x 23 x 8 cm
- Nozzle weight: 0,94 Kg
- Battery weight: 0,345 Kg
- Total weight: 1,285 Kg

Concentrated stream

Fan stream

Adaptable rubber hook available for hanging on the backpack.

3 Manual tools

The rear fixing system means it can carry almost any type of tools.

3.1 Fire swatters

3.2 Pulaski and Dragonslayer

4 Opcional accessories

Hydrapak® 2.8L

BEB5403-AAA0A

Hydrapak® system to place in the central pocket, with a capacity of 2.8 liters. It has an outer tube and nozzle.

Xtreme Shelter XS21

AVA1502-AAA0A

Fireproof shelter for entrapment situations during wildland fires.

VFT Radio holder

BVB0206-AAA0A

The backpack has a Molle system on the shoulder that allows a radio holder to be attached.

1L Holster

BVB0205-AAA0A

Side pocket designed to carry 1L drip torches, water bottles, or personal items.

Xtreme Pack Personal Pouch

BVB0204-AAA0A

This pocket allows you to store food, maps and other items, protecting them from the outside.

Xtreme - K respiration system

AVA1702-AAA0A

Chemical Oxygen-generating respirator, with closed-circuit, single and limited use, for respiratory tract protection in case of an emergency or entrapment.

Dual gallonage nozzle + Hose

BVB0101-P030A + BVB0101-P230A

Provides a straight stream flow in both the reverse and attack positions. Plus, a simple twist of the nozzle tip adjusts the attack from fog to straight stream. The handle is designed with an ergonomic shape for easier use of the nozzle and to prevent friction and pinching during use.
